PROFILE

IT support technician in training, with a background as a flight instructor and developer. Aviation taught me to troubleshoot methodically, follow procedures and stay calm under pressure, and instructing taught me to explain technical concepts clearly. I use Linux daily, have hands-on experience with Docker, the command line and programming in JavaScript and Go, and am now adding Windows Server, Active Directory and Azure through Lexicon.

TECHNICAL SKILLS

- **OS:** GNU/Linux | macOS | Windows
- **Windows Server:** Active Directory | GPO | DHCP (in training)
- **Microsoft 365:** Copilot | Entra ID (in training)
- **Programming & scripting:** JavaScript | Go | Bash
- **Databases:** SQL | MongoDB
- **Version control:** Git
- **Containers & orchestration:** Docker | Kubernetes
- **Networking concepts:** OSI model | TCP/IP | UDP | DNS | Firewalls
- **Cloud:** Azure | Google Cloud Platform

SOFT SKILLS

- Analytical and solution-oriented
- Structured and detail-oriented
- Self-driven and collaborative
- Clear and professional communicator

EXPERIENCE

IT SUPPORT TECHNICIAN (STUDENT) — LEXICON (VIA ARBETSFÖRMEDLINGEN)

Windows Server, Active Directory, Networking, Linux, Azure, Microsoft Copilot/AI.

Aug 2026 – Mar 2027 (ongoing)

- Seeking an internship placement (APL), 1 Feb - 30 Mar 2027.
- Full-time vocational program covering network fundamentals (Cisco/Microsoft/CompTIA), Windows Server 2019/2022 (Active Directory, GPO, file sharing, DHCP), Linux administration, IT security fundamentals, and Microsoft AZ-900 (Azure) and AI-900/AB-900 (Copilot/AI) certification tracks.
- Continuing independent projects alongside studies.

FREELANCE DEVELOPER

Technical focus: React / JavaScript, Go, Docker, Kubernetes & AI tooling.

Oct 2024 - Aug 2026

- Built AeroQuiz, a full-stack aviation training platform using React, Go and MongoDB, with authentication and subscription billing.
- Began building Hermes, an autonomous agent on Arch Linux for automating repetitive computer tasks.
- Offered IT support and custom website development to clients.
- Part-time substitute teacher at Östratornskolan, Lund.
- Aviation: renewed SEP (Land) and Instrument Rating, while keeping my ATPL theory current.

LANGUAGES

- **English:** Fluent
- **Swedish:** Fluent
- **Bulgarian:** Fluent
- **Dutch:** Beginner

EDUCATION

VOCATIONAL TRAINING PROGRAM

Lexicon – IT Support Technician
Malmö, Sweden.
Aug 2026 - Mar 2027

HIGHER VOCATIONAL EDUCATION

Teknikhögskolan – Full-Stack Developer, Specialization in JavaScript
Lund, Sweden.
Aug 2021 - Jun 2023

HIGHER VOCATIONAL EDUCATION

South Sweden School of Aeronautics, SPU Flight Academy:
CPL | ATPL | FI(A) | ME/IR | 550 hrs

SWEDISH ARMED FORCES

Amphibious Regiment (Amf 1), Mortar Platoon.

HIGH SCHOOL - SPYKEN

Natural Science Programme, Lund.

BACKEND DEVELOPER - IKEA - CDA

JS & GCP (Google Cloud Platform)
Jun 2024 - Sep 2024

Co-developed an Availability Test API to simulate customer clicks and purchases, validating the team’s data pipeline and improving understanding of system behavior. Strengthened my ability to work within large codebases and deepened my understanding of complex data flows by carefully studying and documenting system behavior.

BACKEND DEVELOPER - IKEA - INTERACTION CORE

JS, Python (Locust), Redis & Bigtable, Bash, Docker, GCP
Feb 2023 - Aug 2023

During my second internship, my classmate and I conducted a thesis project comparing Redis and Bigtable to strengthen our team’s understanding of modern data storage solutions. After completing the thesis, I continued as a summer developer at IKEA, working with two colleagues to design and implement a Bigtable API.

FRONTEND DEVELOPER - ONE NORDIC AB

C#, JS & Bootstrap
Apr 2022 - Jun 2022

During my first internship, I focused on enhancing the UX/UI design of the company's new website, improving responsiveness with Bootstrap, and integrating the Google Maps API. Following the internship, I stayed on for an additional month in a summer role, continuing to contribute to web development and design tasks.

AIRPORT ANALYST - FLYGPRESTANDA AB

GNU/Linux & Bash
Jan 2021 - Aug 2021

Updated an in-house database with new information (new runways, obstacles, etc.) and created engine-out procedures.

FLIGHT INSTRUCTOR - KRISTIANSTAD & ESLÖV FLYING CLUBS

PA28, C152
Jan 2018 - Aug 2021

Provided flight instruction in light aircraft at flying clubs in Kristianstad and Eslöv and conducted sightseeing flights.
